Grinding cobs with the Corn, makes a foed congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals.) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce the necessary distension, without any danger of diseases arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation .-All the preparations facilitate digestion for Hogs. But Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes. T Read the subjoined certificate. The North Carolina Standard.

W. W. HOLDEN, Editor and Proprietor. HEN the undersigned tood charge of the numbered about one thousand subscribers. Since me since my residence amongst them and hope, that time this number has considerably increased. but it is still insufficient to support such a piper as the democracy of the State desire to have at the seat of government. All the friends of the paper. with whom the undersigned has conversel and corresponded on the subject, thin, that the list may be increased to at least four thousand. | Cannot this be accomplished? The undersigned respectfully submits whether, out of 40,000 dempcratc voters in North Carolina, there cannot le oborders from Physicians and country tained for the Central Journal a permanent circulation of four thousand copies

It is needless, perhaps, to say that the Standard will be constantly devoted to the support and promulgation of democratic principles, and that its Editor will labor, month by month, and year by year, with whatever abilities he may possess, to destroy the odious and dangerous doctrines of the Federal party. And it may not be improper to state here, that at the late meeting of the Democratic State Central Committee for North Cirolina, a resolution was passed heartily and entirely approving of the course of the Standard since it has been under the control of the undersigned, and recommending to the party throughout the State the importance of increasing its circulation. The Standard will continue to give attention as heretofore, to miscellaneous reading, and to the general news of the day; and no efforts nor pains will be spared to render it an useful and interesting sheet. To those who, at the commencement of his labors, gave to the undersigned a generous support and confidence; and who continue to cheer him by their patronage and friendship-and indeed to the whole democratic party of the State-he tenders his sincere thanks.
